Baku city, Aghayev street, 54\60, AZ1073, Baku, Azerbaijan

About me: I am a websites software developer with 3 years' experience developing a wide range of tools for both Desktop and Phone for a range of clients. I have proven expertise in building e-commerce, education and myriad websites. I understand the websites project lifecycle in depth and am very capable at all aspects of development from project planning to requirements gathering through to writing and testing code, creating documentation and support. I am improving myself as application software developer.

● WORK EXPERIENCE

20/04/2020 – 30/03/2021 – Baku, Azerbaijan
FRONT-END DEVELOPER – BILYURD

- Built modern applications with HTML5, CSS3, JAVASCRIPT.
- Continuously integrated and deployed developed software. Updated the continuous integration/deployment scripts as necessary to improve continuous integration practices.
- Consulted with Product Manager to identify minimal viable product and decomposed feature set into small scoped user stories.

<https://github.com/frdayvz85/React-travel-website>

<https://react-travel-website.netlify.app/>

01/02/2021 – 12/02/2021

Job Find Agency- Backend

<https://jobfindagency.herokuapp.com/>

<https://github.com/frdayvz85/backendjobfind/tree/finalPorject>

Every day someone is looking for a job. Whether that person is a recent graduate, a person laid-off from work, or a person that wants a different job, their diligent search turns into a carefully planned search for employment. It is important that a person knows how to search effectively for a job. So, I have created responsive middle Job Find webiste. Usage of website is easy. Users can create USER account as well as Employers can create EMPLOYER account

14/02/2021 – 21/02/2021

Portfolio-Backend

<https://habibsadigzade.herokuapp.com/>

<https://nizamialimammadov.herokuapp.com/>

I have created portfolio websites for my friends. I have used Python/Django, as well as I have deployed to Heroku.

24/02/2021 – 02/03/2021
